Dan – I have received a disk from Kay but I don't think its complete. I also have the UAA on a flash drive from Peter Butler – he gave it to me about 3 weeks ago and I'm just beginning to look at that. What I'm finding is that some parts of the UAA are only on Peter's version but Kay has colored copies of some of the maps that Peter only has in B/W. Also, some of Kay's stuff is not in order so you don't really know if all the figures or tables are there. And at least part of appendix A of chapter 10 on Kay's version is corrupt so you need to go back and forth between the 2.

I'm going to post both versions in the 30-day folder on the I-drive under my folder – "PSchmittiel – Upper Animas." In the meantime, I'm going to see if I can find someone to go thru each and every folder of both versions and merge them into one complete and organized version that we can then use instead of going back & forth between 2 versions.

Hi Paula

Have you received the UAA in electronic form yet? I have a draft from January 2001. Can you post it to the I drive so I can download it when it arrives?
